

Motivation Letter for Erasmus

Dear Sir/Madam,

I'm pleased to commence writing my motivation letter for the Erasmus programme. Erasmus is the dream that I have dreamt of whole my life ever since I enrolled for my senior secondary education. With this motivation letter, I don't think I can express my motivation in a justified manner. Yet, I'm trying my best to express my strong urge to be part of the Erasmus programme.

I finished my bachelor's programme in international work and culture last year. I'm currently studying the same stream in my master's as well. Further, I want to get into the p.hd and conduct my research in the same domain. So, therefore Erasmus is the dream landing platform to land me on my dream platform.

I believe I can learn and get the best possible exposure of international culture at the Erasmus. I understand the value of the programme and hence I'm immensely diligent to make the most of it.

Thanks & Regards,
Sharon Musk
