California 10880

Shane Watson
Manager at Human Welfare

Sir, I'm writing this motivation letter as the medium of explaining my strong will to participate in your organization. I have always been a huge fanatic of noble work from the organization. I'm here stating my strong will to join the organization as the volunteer hand of the organization. Further, I have a decent amount of experience as a volunteer to participate in several occasions to serve my part.

I once served in the severe climate change challenges occasions across the various part of California. Further, In a similar manner, I have contributed to human welfare across various places of the country. At last, I'm concluding my letter as the humble request to be part of the organization. So, I believe my strong will of serving will be taken care by the noble vision of the organization.

Thanks& Regards
Christina Angel
